A heartbreaking and powerful story about a black boy killed by a police officer, drawing connections through

history, from award-winning author Jewell Parker Rhodes. Only the living can make the world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.

*Theories of Terrorism* explains and advances the major theories of terrorism that address issues of becoming a terrorist, being a terrorist, and leaving terrorism, in a clear and accessible format. Readers will gain an understanding of the most promising explanations of terrorism that have been developed to date and how they can be used to explore core substantive issues related to the topic. The content is delivered with a scholarly depth, though still accessible by students at different levels. The book offers explanations from prominent scholars for the three phases of radicalization, covering emerging topics such as women's involvement in terrorism, fear of terrorism, the code of the terrorist, and suicide terrorism. This is the first book in the *Advances in Criminological Theory* series to address the issue of terrorism and emphasizes the use of theory to direct research development in the future. The style and content coverage of the book make it appropriate as a supplemental text in undergraduate courses on terrorism and political violence. The inclusion of current empirical literature and guidance for future research efforts gives the text appeal for graduate students and academics in the disciplines of criminology/criminal justice, political science, sociology, and interdisciplinary terrorism studies. The emphasis on theory and the radicalization process throughout the text will also make the book useful as a reference for general graduate-level theory courses within these areas.

*What to Text Him Back to Keep Him*

Hooked and Make Him BEG to See You Again Did you know that men secretly use texting as a way to "pre-screen" a woman's romantic value? A woman's texting habits can reveal a lot about her self-worth, confidence, intelligence, and even her level of class and emotional maturity. Because guys covertly appraise a woman's relationship potential this way, many women often have no idea that the way they communicate via text is actually sending the wrong message and thus, they unknowingly end up chasing men away. Discover the Secrets of Texting Men to Effortlessly Stand Out from EVERY Other Woman Men have their own unique way of interpreting a woman's communication attempts. Therefore, although many women mean well, they often do things when texting men that sometimes makes them appear too easy, too needy, too bossy, or too boring...even if these things aren't necessarily true about them. Texting is the one medium of communication in which a great guy can easily get the wrong idea about you. And as these wrong ideas pile up inside his mind, they usually coalesce into a single romance-killing thought: That he can do better than you. So, what's a girl supposed to do then? Simple really. All she needs to do is understand exactly how men appraise female texting habits and how to use this knowledge to differentiate herself as being a high-value woman. Doing so will make it easy for her to stand out from EVERY other woman who texts him. How to Use Texting to Tease, Flirt, and Entice Your Way into Becoming His TOP Priority If you want to arouse the kind of long-term desire in a man that makes him eager to pursue you for dates, romance, commitment, and more, you must take advantage of texting and

Here's what you're going to learn inside: Exactly what to text a guy when he's stringing you along and only doing the BARE MINIMUM to keep you interested. How to use mischievous "Feisty Girl" texts to get a man to finally ask you out (or ask you out AGAIN), while making it seem like it was all HIS idea. What to do (and what NOT to do) if a guy suddenly stops texting you or starts responding to your texts less and less. How to get him to CALL YOU instead of texting all the time. What to text a man to "let him down easy" but KEEP him interested whenever he sends an inappropriate or overly sexual text. Exactly what to text a guy who keeps "coming BACK from the DEAD" and suddenly starts taking an interest in you again. (Hint: These cheeky little texts can end his mind games for GOOD!) A simple method for starting conversations that IMMEDIATELY grabs his attention and makes him EAGER to text you back. What to text a guy you know and like to initiate his "Chase Mode" and make him see you as MORE than "just-a-friend." The #1 bestselling pioneer of "fratire" and a leading evolutionary psychologist

team up to create the dating book for guys. Whether they conducted their research in life or in the lab, experts Tucker Max and Dr. Geoffrey Miller have spent the last 20+ years learning what women really want from their men, why they want it, and how men can deliver those qualities. Becoming your best self requires honesty, self-awareness, hard work and a little help. Through their website and podcasts, Max and Miller have already helped over one million guys take their first steps toward Ms. Right. They have collected all of their findings in *Mate*, an evidence-driven, seriously funny playbook that will teach you to become a more sexually attractive and romantically successful man, the right way: No "seduction techniques," No moralizing, No bullshit. Just honest, straightforward talk about the most ethical, effective way to pursue the win-win relationships you want with the women who are best for you. Much of what they've discovered will surprise you, some of it will not, but all of it is important and often misunderstood. So listen up, and stop being stupid!

*How to Effortlessly Start Conversations and Flirt Like a Pro* Hodder Education  
In this "important and comprehensive" guide to statistical thinking (New Yorker), discover how data literacy is changing the world and gives you a better understanding of life's biggest problems. Statistics are everywhere, as integral to science as they are to business, and in the popular media hundreds of times a day. In this age of big data, a basic grasp of statistical literacy is more important than ever if we want to separate the fact from the fiction, the ostentatious embellishments from the raw evidence -- and even more so if we hope to participate in the future, rather than being simple bystanders. In *The Art of Statistics*, world-renowned statistician David Spiegelhalter shows readers how to derive knowledge from raw data by focusing on the concepts and connections behind the math. Drawing on real world examples to introduce complex issues, he shows us how statistics can help us determine the luckiest passenger on the Titanic, whether a notorious serial killer could have been caught earlier, and if screening for ovarian cancer is beneficial. *The Art of Statistics* not only shows us how mathematicians have used statistical science to solve these problems -- it teaches us how we too can think like statisticians. We learn how to clarify our questions, assumptions, and expectations when approaching a problem, and -- perhaps even more

importantly -- we learn how to responsibly interpret the answers we receive. Combining the incomparable insight of an expert with the playful enthusiasm of an aficionado, *The Art of Statistics* is the definitive guide to stats that every modern person needs.

"A page turner...heart-stopping and enraging...focused, justified, and without a trace of self-pity. Shot through with poignancy." —New York Times Book Review  
Over a decade after its first publication, *Jesus Land* remains deeply resonant with readers. Now with a new preface by the author, this New York Times bestselling memoir is a gripping tale of rage and redemption, hope and humor, morality and malice—and most of all, the truth: that being a good person takes more than just going to church. Julia and her adopted brother, David, are sixteen years old. Julia is white. David is black. It is the mid-1980s and their family has just moved to rural Indiana, a landscape of cottonwood trees, trailer parks, and an all-encompassing racism. At home are a distant mother—more involved with her church's missionaries than her own children—and a violent father. In this riveting and heartrending memoir Julia Scheeres takes us from the Midwest to a place beyond imagining. Surrounded by natural beauty, Escuela Caribe—a religious reform school in the Dominican Republic—is characterized by a disciplinary regime that extracts repentance from its students by any means necessary. Julia and David strive to make it through these ordeals and their tale is relayed here with startling immediacy, extreme candor, and wry humor.

Written by two of the leading explorers in the birdlife of the High Andes, this book sets new standards in this field. The book is illustrated by Jon Fjeldsaa, one of the World's most gifted bird artists, who again has proved his accuracy with the fine plumage details as well as masterly renditions of the general impression and shape. Almost one tenth of the World's nine thousand bird species are illustrated, many of them for the first time. Both males, females, young, and distinct subspecies are shown. The 64 beautifully composed colour plates depict over two thousand plumages. This is supplemented by several hundred line-drawings of the birds. Today this book is regarded as the "bible" in Andean birds and more than 4000 copies have been sold. *Birds of the High Andes* is published in co-operation with the Zoological Museum, Copenhagen, where one third of the retail price for the books is spent on further investigations in Andean birds.
