International Tourism and Hospitality in the Digital Age Routledge Cross-Cultural Aspects of Tourism and Hospitality is the first textbook to offer students, lecturers, researchers and practitioners a comprehensive guide to the influence of culture on service providers as well as on customers, affecting both the supply and the demand sides of the industry – organisational behaviour, and human resource management, and marketing and consumer behaviour. Given the need for delivering superior customer value, understanding different cultures from both demand and supply sides of tourism and hospitality and the impact of culture on these international industries is an essential part of all students' and practitioners' learning and development. This book takes a research-based approach critically reviewing seminal cultural theories and evaluating how these influence

employee and customer behaviour in service encounters, marketing, and management processes and activities. Individual chapters cover a diverse range of cultural aspects including intercultural competence and intercultural sensitivity, uncertainty and risk avoidance, context in communication, power distance, indulgence and restraint, time orientation, gender, assertiveness, individualism and collectivism, performance orientation, and humane orientation. This book integrates international case studies throughout to show the application of theory, includes self-test questions, activities, further reading, and a set of PowerPoint slides to accompany each chapter. This will be essential reading for all students, lecturers, researchers and practitioners and future managers in the fields of Tourism and Hospitality.

International Hospitality Management: issues and applications brings together the latest developments in global hospitality operations with the contemporary management principles. It provides a truly international perspective on the hospitality and tourism industries and provides a fresh insight into hospitality and tourism management. The text develops a critical view of the management theory and the traditional theories, looking at how appropriate they are in hospitality and tourism and in a multicultural context. The awareness of cultural environments

and the specifications imposed by those cultures will underpin the whole text. International Hospitality Management is designed to instil a greater awareness of the international factors influencing the strategies and performances of hospitality organisation. The approach focuses on a critical analysis of the relevance and application of general management theory and practice to the hospitality industry. Consisting of three 3 parts divided into 14 chapters, each of which deals with a major topic of international management, the book has been thoroughly developed with consistent learning features throughout, including: Specified learning outcomes for each chapter International case studies including major world events such as the September 11 Terrorist Attacks, the Argentine Financial Crisis, The SARS virus, The Institution of Euro, the accession of China to the World Trade Organization., and the expansion of European Union, as well as international corporations such as Marriott, Hilton, Intercontinental, McDonalds, Starbucks etc. It introduces the global market situation, including Americas, Europe, Asia Pacific, and Middle East. Study questions and discussion questions to consolidate learning and understanding. studies Routledge

This book proposes a new paradigm for English language teaching based on concepts from English for Specific Purposes (ESP) research and applications as well as from growing evidence relating pattern recognition to language learning ability. The contributors to the volume argue that learners should not try to become proficient all-around users of 'idealistic native-like' English, but instead should be realistic about what they need to acquire and how to go about achieving their specific goals. The book discusses the present situation by describing the status quo of English language education in Japan, taking into consideration recent trends of CLIL (content and language integrated learning), EMI (English medium instruction), and TBLT (task-based language teaching) as well as the work done on the Common European Framework of Reference for Languages (CEFR). It introduces new movements in ESP in Japan and in other Asian regions, covering topics ranging from genre analysis to corpus linguistics, and presents application examples of ESP practice in a range of educational situations in Japan from the graduate school level to elementary and middle school contexts. It also offers readers application examples of ESP practice in a range of business settings and expands the discussion to the global sphere where EAP and ESP are gaining importance as the number of ELF (English as a Lingua Franca) speakers continue to increase. The book will be of great interest to academics, researchers, and post-graduate students working in the fields of EFL and ESL.

The Business of Hospitality and Travel Bright Sparks

Worldwide, tourism is the third largest economic activity in direct earnings after petroleum and automobile industries, and by far the largest one if indirect earnings are also taken into consideration. Taking into account the profound economic impact the tourism and hospitality industries can have on regions and cities around the world, further research in this area is critical. *Global Dynamics in Travel, Tourism, and Hospitality* takes a holistic approach to tourism and hospitality operations, education, and research. Highlighting the latest research in the field, real-world examples of how these industries are shaping economic development as well as future outlooks and opportunities for growth, this publication is an essential reference source for researchers, professionals, and graduate-level

students.

The English of Tourism is a collection of essays on the English specific to the Tourism Industry. The approach is a linguistic one: the different aspects of the English used in the field of tourism (tourism industry, types of tourism, travel agencies, Internet sites of travel agencies, eco-tourism, travel) and in tourism-related fields (accommodation, advertising, entertainment, food services, hospitality, transportation) are analysed from a morphological (combination, derivation), syntactical (nominal phrases, verbal phrases), lexical and lexicographical, semantic (homonymy, semantic fields, synonymy, terminology), pragmatic (academic discourse, idiom, metaphor), etymological (etymon, Latin heritage), and contrastive (Croatian-Romanian, English-Croatian, English-Romanian, French-English, Romanian-English) points of view. This book will appeal to people employed in industries including hotels, transportation, events, food and beverage, parks and recreation, as well as to professors, researchers, students, and translators from Croatian-, English-, French-, and Romanian-speaking countries, active in their own countries or abroad. The types of academic readership it will appeal to include: academic teaching staff, researchers and students in the field of tourism, of tourism-related fields - accommodation, advertising, entertainment, food services, hospitality, and transportation - and of languages.

English for Tourism and the Hospitality Industry : for Upper-intermediate and Advanced Students CRC Press

We live in an uncertain world characterized by the occurrence of unexpected incidents in different corners of the globe which can have widespread adverse consequences. It is therefore vital to be prepared for, and attempt to prevent or mitigate the negative effects of such crises through crisis management tools and organizational learning practices. According to the current literature, the tourism and hospitality industry has been exposed to dramatic impacts from human-induced crises and natural disasters during past decades. The repercussions are manifested in the form of business failure, economic losses, tarnished destination image, physical damage to infrastructure and facilities, psychological effects, and other undesirable outcomes. Many of these crisis events are recurrent and their effects can be averted or ameliorated through practicing organizational learning and engaging in preparation activities. However, limited attempts have been made by industry players to detect early warning signals, learn from crises and prepare for the next ones. Despite the important contributions in terms of 'lessons learned' from historical analyses, they usually provide little information on how tourism organizations facing the crisis attempted to manage it proactively and what they did reactively (Paraskevas and Quek, 2019). Comprehensive sources in this field is thus necessary to fill this gap. Few research studies are available to discuss

organizational learning in the process of tourism crisis management. A comprehensive collection of book chapters concentrating on both theory and practice will shed some light on this issue and propose recommendations for future investigation. Hence, the aim of this publication is to discover various aspects of organizational learning in tourism and hospitality crisis management and discuss future prospects. The book will be the main resource for future research in the field of tourism crisis management and organizational learning. There would be several reasons for such demand. First, this subject is relatively new in the hospitality and tourism field, covering many critical aspects of organizational learning in tourism crisis management. This novelty and in-depth discussions of practical lessons across the globe could be of great interest to both academics and practitioners alike. In recent years, many tourism and hospitality firms have applied the essence of crisis management and organizational learning in their contingency planning and crisis management frameworks. Tourism and hospitality managers have fully realized the importance of learning from previous crises and thus applied these learning strategies in their preparation programs. Therefore, they would be very eager more than before to use this material and recommend it to colleagues, employees, etc. Another potential demand would be academics, students and researchers in the both fields of organizational learning and tourism crisis management. Most universities and tourism institutions either directly or indirectly have developed new curriculums on tourism crisis management at Masters and PhD levels with special focus on organizational learning and preparation. This book will be of great interest for these people as

previous resources are relatively outdated and furthermore, they did not cover the subject of organizational learning in details.
