Nurses need to know what proven techniques and interventions they can use to enhance patient outcomes. To address this need, the Agency for Healthcare Research and Quality (AHRQ), with additional funding from the Robert Wood Johnson Foundation, has prepared this comprehensive, 1,400-page, handbook for nurses on patient safety and quality -- Patient Safety and Quality: An Evidence-Based Handbook for Nurses. (AHRQ Publication No. 08-0043)."--Online AHRQ blurb, <a href="http://www.ahrq.gov/qual/nursesfdbk">http://www.ahrq.gov/qual/nursesfdbk</a> .  |  |
| <b>Patient Safety and Quality</b> Penguin<br>This unusually wide-ranging memoir, moving from Europe to America, academia to industry, science to art, triumph to tragedy, is the idiosyncratic life story of Carl Djerassi, teenage refugee from Nazism and prodigiously gifted chemist who experimented with a local yam in Mexico, synthesized steroids and, along with Gregory Pincus and John Rock, fathered the birth control pill. In this personal, incisive account, Djerassi tells the story of an extraordinarily driven and successful scientist-businessman, who taught for decades at Stanford University while maintaining a foothold in industry, married three times, had two children, and became an art collector as well as author and playwright. He describes how he lost his only daughter to suicide and his beloved third wife, biographer Diane Middlebrook, to cancer and how he has continued to live his extraordinary life. "Mr. Djerassi has a great deal to be immodest about... He is the very model of the scientist-businessman who knows how to turn his discoveries into commercially useful and profitable enterprises without jeopardizing his academic standing..." — The New York Times "Djerassi became enormously wealthy thanks to the soaring value of the Syntex stock acquired when he worked at the company... where he led the research team that synthesized the first orally active steroid contraceptive compound... and he took up art (and house) collecting. Emotionally, his life was turbulent: he married three times, and had to face the tragedy of his daughter's suicide in 1978. His marvellous first autobiography, <i>The Pill, Pygmy Chimps and Degas' Horse</i> , covers this era in his life." — Nature "The pill here is the first oral contraceptive, synthesized by the author at age 28 in 1951; pygmy chimps were the subjects of a mid-career biomedical experiment and Degas's horse represents the delights of art collecting, to which the award-winning scientist turned in later life... Shattering the cliché of scientists as one-dimensional technocrats, the book reveals a |  |

singular life with more than its share of pain, self-discovery, danger, wit, joy and irony." — Publishers Weekly "Carl Djerassi, who is a scientist, artist, philosopher and mensch all in one, has produced the very best of scientific autobiography... Read this book." — Stephen Jay Gould "I found the first few pages so interesting that for two days I neglected my work in order to read the book from beginning to end." — Linus Pauling, Nobel Laureate "Delightfully unconventional... hilarious and wide-ranging." — Arthur C. Clarke

Joe Allston, the retired literary agent of Stegner's National Book Award-winning novel, *The Spectator Bird*, returns in this disquieting and keenly observed novel. Scarred by the senseless death of their son and baffled by the engulfing chaos of the 1960s, Allston and his wife, Ruth, have left the coast for a California retreat. And although their new home looks like Eden, it also has serpents: Jim Peck, a messianic exponent of drugs, yoga, and sex; and Marian Catlin, an attractive young woman whose otherworldly innocence is far more appealing—and far more dangerous.

Explore the power of the underdog in Malcolm Gladwell's dazzling examination of success, motivation, and the role of adversity in shaping our lives, from the bestselling author of *The Bomber Mafia*. Three thousand years ago on a battlefield in ancient Palestine, a shepherd boy felled a mighty warrior with nothing more than a stone and a sling, and ever since then the names of David and Goliath have stood for battles between underdogs and giants. David's victory was improbable and miraculous. He shouldn't have won. Or should he have? In *David and Goliath*, Malcolm Gladwell challenges how we think about obstacles and disadvantages, offering a new interpretation of what it means to be discriminated against, or cope with a disability, or lose a parent, or attend a mediocre school, or suffer from any number of other apparent setbacks. Gladwell begins with the real story of what happened between the giant and the shepherd boy those many years ago. From there, David and Goliath examines Northern Ireland's Troubles, the minds of cancer researchers and civil rights leaders, murder and the high costs of revenge, and the dynamics of successful and unsuccessful classrooms—all to demonstrate how much of what is beautiful and important in the world arises from what looks like suffering and adversity. In the tradition of Gladwell's previous bestsellers—*The Tipping Point*, *Blink*, *Outliers* and *What the Dog Saw*—David and Goliath draws upon history, psychology, and powerful storytelling to reshape the way we think of the world around us.

This book translates knowledge about persuasion into evidence-based principles. Useful knowledge about persuasion has been obtained over the last 100 years from the experience of advertising experts and from empirical studies in advertising and other fields including psychology, consumer behavior, law, mass communication, politics, and propaganda. The principles in *Persuasive Advertising* provide understandable and easy-to-access guidance for all types of advertising. Including still media such as print and Internet, and motion media such as TV, streaming video, Internet, and radio. They also apply to other types of persuasive communications such as management reports, speeches, and press releases. Wharton School Professor J. Scott Armstrong spent over 16 years on this book. In recent years, he was assisted by Gerry Lukeman, Chairman Emeritus of Ipsos-ASI and Sandeep Patnaik, Research Director at Gallup and Robinson. Altogether, more than 80 people contributed to *Persuasive Advertising* by obtaining relevant studies, analyzing data, editing and reviewing, and surveying researchers to ensure that the book correctly summarizes their findings. *Persuasive Advertising* summarizes findings from about 3,000 empirical studies and 50 books. It also presents new findings from previously unpublished studies. . Along with the AdPrin Audit software on AdPrin.com, *Persuasive Advertising* enables advertisers as well as agencies to quickly and inexpensively identify ways to improve ads – or to determine which of a set of ads will be most effective. For example, it typically requires about an hour for an experienced user to obtain a persuasiveness index for a print ad along with a list of ways to improve the ad., By using these principles, advertisers can improve their creativity and effectiveness. This book is supported by the AdPrin.com site: <http://advertisingprinciples.com/> Little, Brown

*Nutrition Guide for Physicians* is a desktop reference guide on nutrition and its clinical implications for health and disease through the lifecycle. Presented in a new softcover format and user-friendly style, it serves as a valuable resource of practical information on nutrition for physicians in their daily practice. *Nutrition Guide for Physicians* is divided into three parts that cross the spectrum of nutritional concerns for improving the practice of medicine. Part One provides basic nutritional principles for physicians. Part Two covers nutrition through the lifecycle and optimal nutrition patterns through all stages of development. Part Three covers diet and its role in prevention, cause and treatment of disease. All chapters include figures and tables that provide useful descriptive and visual reviews. "Key points" and succinct "conclusions" are also provided for each topic. *Nutrition Guide for Physicians* provides a wide perspective of the impact that nutrition has upon medical practice and will be an indispensable resource for primary care physicians and other medical professionals.

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

A masterpiece of spellbinding suspense, where evil wears the most innocent face of all... Rosemary Woodhouse and her struggling actor husband Guy move into the Bramford, an old New York City apartment building with an ominous reputation and mostly elderly residents. Neighbors Roman and Minnie Castavet soon come nosing around to welcome the Woodhouses to the building, and despite Rosemary's reservations about their eccentricity and the weird noises that she keeps

hearing, her husband takes a special shine to them. Shortly after Guy lands a plum Broadway role, Rosemary becomes pregnant, and the Castavets start taking a special interest in her welfare. As the sickened Rosemary becomes increasingly isolated, she begins to suspect that the Castavets' circle is not what it seems...

Acclaimed independent filmmaker Ed Burns shares the story of his remarkable career and offers a candid, instructive account of the ins-and-outs of making great movies without the backing of Hollywood. As the second of three children from a working-class Long Island family, Ed Burns thought a career in filmmaking was a pipe dream. When his first film, *The Brothers McMullen*, won the Grand Jury Prize at the Sundance Film Festival, he proved himself to be one of the most distinctive and tenacious filmmakers of our time. Since then he has gone on to star in major Hollywood films while remaining dedicated to his true passion: making small films that he believes in. Sharing the lengths he's gone to in order to write, direct, cast, produce, shoot, and edit films on a shoestring budget, Burns uses stories from his life and career to illustrate what it takes to make it as an indie filmmaker. His extreme focus and drive prove that passion and hard work can pay off,

and he urges students and aspiring filmmakers to embrace and learn from their failures--and continue to pursue their goals. A gripping, inspirational story about forging your own path, *Independent Ed* is a must-read for casual movie fans, serious film students, and any creative person searching for a bit of inspiration.

"The benefits of cross-laminated timber (CLT) are clear: building in timber is quick, clean, and easy. It can be achieved with a measured accuracy and lack of noise, waste, or need for material storage space. This book is a study of the 100 of the most significant buildings constructed from CLT in the United Kingdom over the past 15 years. Authors Andrew Waugh and Anthony Thistleton of Waugh Thistleton Architects have contacted a wide range of individuals and businesses to interview them about their experiences building in CLT to help inform this book." -- Thinkwood.com.
