(Amazon). [Can These Bones Live?](#) B&H

Publishing Group This groundbreaking book shows that a revolution is already taking place within the church—one that will affect every believer in America. Committed, born-again Christians are exiting the established church in massive numbers. Why are they leaving? Where are they going? And what does this mean for the future of the church? Drawing upon extensive

data, renowned researcher and author George Barna predicts how this revolution will affect the organized church, how Christ's body of believers should react, and how individuals who are considering leaving (or those who have already left) can respond. For leaders working for positive change in the church, and for believers struggling to find a spiritual community and worship

experience that resonates . . . get ready, because a revolution is here.

 Since its publication in 1995, Ron Crandall's *Turnaround Strategies for the Small Church* has become required reading for anyone striving to revitalize the ministry of a small membership congregation. That book was built on extensive interviews and

studies conducted in dozens of small membership churches, across several denominations, that had experienced significant turnaround. In a new study Crandall has now returned to those congregations to see what it takes to make the turnaround work over a period of years. Learning much from both the churches who maintained significant growth in numbers and

ministry, and those that failed to do so, he offers even more helpful insight to any congregational leader seeking to take a small membership church into a new phase of witness and mission.

To Transform a City Alban Books

Theology disconnected from mission is not Christian theology at all. The pastors, professors, and missionaries

writing Theology and Practice of Mission provide a clear biblical-theological framework for understanding the church's mission to the nations. Toward that goal, the book holds three major sections: God's mission, the church's mission, and the church's mission to the nations. Part one explores the canon of Christian Scripture from narrative and systematic angles, explaining how the

mission of God-to redeem a people who will be a kingdom of priests to the praise of his glory, bear witness to his gospel, advance his church, and dwell with him forever on a new heaven and earth-is communicated in the Bible's four movements: Creation, Fall, Redemption, and Restoration. Part two sees the mission of God's people in the light of God's mission, emphasizing not only

preaching and church planting but also gospel witness in every dimension of human culture-glorifying God in family, church, work, community, through the arts, sciences, education, business, and the public square. The writers encourage us to live missionally, leaving all of our resources at God's disposal for the sake of his kingdom. Finally, part three contends that

the North American church must come to terms with its missional calling-just as international missionaries do-and gives a starting point and parameters for conceiving the church's mission to all people groups and cultural contexts. Chapters here include ones on unreached people groups, Muslims, Hindus, Buddhists, and Postmoderns. Maximum Faith Zondervan

Argues in behalf of transforming main-line congregations into "missional communities," which will give hope to declining churches in the twenty-first century. *Sacred Acts Holy Change* Abingdon Press Community transformation is one of eight discipleship guides for the Dimensions of Discipleship series. It doesn't matter which guide you start with-start wherever you'd like and move on to wherever God

is leading you next. You can use this guide to disciple others, you can go through it in a small group setting, or you can work through it individually. Community transformation is the outwardly visible result of how we live in the world corporately as followers of Jesus. When we are growing as disciples, living out the values of the Kingdom, it makes an impact on the places where we live. This

guide has some concise teaching with core scripture passages and discussion questions for each of the five areas listed below: Participating in a faith community that reaches outside of itself Praying for healing and reconciliation in society Involving yourself in social justice needs in the broader community Caring for God's creation in practical ways Helping others cultivate

 John Howard Yoder, author of *The Politics of Jesus*, was best known for his writing on Christian pacifism. This volume—based on lectures recorded in 1973—shows he was a profound missiologist as well. Yoder weaves together biblical, theological, practical and interreligious reflections to think about mission

beyond Christendom. *Church in Transition* SBL Press Wake Up, Church! is a timely response to the life-threatening confluence of mistrust, economic crisis, and failure to adjust to clear warnings of impending collapse that congregations face today. Debt and budget shortfalls combine with flat statistics and dismal projections, while apathetic constituents

yawn and frightened followers prepare to exit. In all the muck, there remains a gospel that has carried the risen body of Christ without fail for centuries through personal spiritual growth. Those followers who remain will become transformational leaders in a movement that will change the world by renewing local congregations with global impact through the Holy Spirit.

Never in history have congregations been so infinitely powerful to carry out the unfinished task as they are today.

Congregations in

Transition

David C Cook Uses the powerful imagery from Ezekial 37 to show how God used a faithful few to breath new life into a dying church.

Stealing Sheep

Rowman & Littlefield The general decline of American mainline Protestant

churches today is well documented. Church redevelopment—imagining and actualizing new life for dying churches—is a productive and vital response to congregational decline, but it can be daunting. Here is a guidebook for church leaders, to help them reinvigorate their churches with both practical advice and tested theory. A comprehensive case study

of Beneficial Congregational Church, which successfully turned the tide and quadrupled its worship attendance, provides inspiration as well as concrete strategies for church redevelopment. The study indicates that successful and faithful church redevelopment involves a shift from a modern-patronage ministry model to a postmodern-plural ministry model. Building on

current church redevelopment literature by bringing selected Biblical and theological texts into conversation with leadership concepts, systems theory, social sciences, and congregational studies, this book creates a multidisciplinary transformative conversation. The result is both strategic proposals for growing your church and a model for doing practical theology in your own ministry

context. Dedicated, trained leadership in cooperation with the power of the Spirit can create the possibility of new life in dying congregations .

The Journey of Existing Churches into the Emerging Culture In our fast-growing post-Christian, postmodern culture, the church often finds itself marginalized and ineffective in mission. The

new emerging church is both hopeful and frightening compared to more traditional forms of Christianity. However, these "two churches" need each other. The Church in Transition presents honest stories of the failures and successes of a variety of transitioning fellowships. *Transitions* Tyndale House Publishers, Inc. Reclaiming the "L" Word is a book about renewing

congregations by recognizing and living out the core teachings of the Lutheran faith. Primarily written for those who call themselves Lutheran and, specifically, those who are members of ELCA congregations , this little book helps us answer these central questions: Who are we? What DOES it mean to be a Lutheran today, anyway? And, why does it matter. Inspirational, engaging, and challenging,

this book is a must-read for pastors and congregational leaders!

McIntosh, D.Min., Ph.D. Talbot Seminary, Biola University Helping pastors understand themselves and their role is crucial and fundamental. So is training them in the tactics and strategies of change. Furthermore, they must learn how their personalities help or hinder leading change. I believe the process described in this book is targeted more specifically

than any other I know to provide this training . Paul Borden. Ph.D. Director, Church Health Initiative I am grateful to the authors for including The Birkman Method in their work with pastors. My father, Roger Birkman, was passionate about helping people of faith gain a clearer, more accurate understanding of self and others. The authentic kind of leadership development recommended in this book will profoundly

impact pastors and the people they lead. We are proud that Birkman can play a role in the important initiative represented in Pastor Unique. Sharon Birkman Fink, CEO Birkman International, Inc.
